

**REMARKS**

This is in response to the Office Action of September 12, 2005.

The Office Action indicates that the claims in this application are directed to several patentably distinct species, including an access circuit, a control circuit, a memory device, a computer system, and a method. Claims 1-22 are directed to the access circuit, claims 23-25 are directed to the control circuit, claims 26-33 are directed to the memory device, claims 34-41 are directed to the computer system, and claims 42 and 43 are directed to the method. Applicant hereby elects for continued prosecution in this application claims 1-22 directed to the access circuit without prejudice to the filing of any divisional, continuation, or continuation-in-part application. In view of this election of species, applicant hereby cancels claims 23-43. Consideration of the elected claims is now requested.

Respectfully submitted,

DORSEY & WHITNEY LLP
